Explored event management and community initiatives.
- **Participant - PECHacks**
27-28 Jan 2024
Competed in a national level hackathon.

Projects

- **Land Price Predictor**
Created an ML model using Python libraries such as scikit-learn and BeautifulSoup to predict land prices based on various features.
- **Celebrity Image Classifier**
End to end project where user can drop a celebrity image and model will classify it.
- **Text to Emoji Encryption/Decryption**
Developed a tool to encrypt text messages into emojis and decrypt them with an access key using JavaScript.
- **Amazon Home Page Clone**
Replicated Amazon.com's home page using HTML and CSS, demonstrating front-end development skills.
- **CookEzy Android Application**
Created an Android application for recipe sharing and storing using Java.

Certifications

- **Coursera:** Data Analysis with R Programming
- **Coursera:** Foundations of Cyber Security
- **AWS:** Cloud Foundations
- **eDX:** Blockchain: Understanding its Uses and Implications
- **eDX:** Introduction to Web Development with HTML5, CSS3, and JavaScript

Languages

- Hindi
- English
- Marathi

Hobbies

- Web Development
- Sports: Badminton, Cricket, Volleyball
